Help

This Program allow you to open two instances (a second open) I clicked on File, SAVE AS, and moused down to JPG. I had also browsed to where to save. I could change to preferences for that

Confirmation [X]

The destination PDF file already exists. You can

- Insert at beginning of existing file
- Append to the existing file
- Overwrite existing file

BUT YOU DO NOT WANT THE DEFAULT SELECTED BUTTON.

You want to Append the second Graphic to the original PDF. You also do not want to replace the original pdf.
